William Werschler, M.D.
c/o Dunn and Black, PS
111 North Post Street #300
Spokane, Washington 99201

Dear Dr. Werschler:

I am writing under the terms of the settlement agreement reached between you and the Department of Health on July 2, 2012.

You were investigated by the Department of Health in response to complaints the department had received in 2006. This was a good faith effort to protect the public, but there were oversights during the investigation. We apologize for those oversights and regret any damage done to your personal goodwill, reputation and the distress this has caused your family. New practices are in place to prevent these types of oversights in the future.

Sincerely,

Karen Ann Jensen, Assistant Secretary
Health Systems Quality Assurance

cc: Jason Brown, Assistant Attorney General
Dennis Anderson, Department of Health
